

WISBROEK INSECT EATER DIET

28

SUITABLE FOR: Insect-eating birds

Wisbroek Insect Eater Diet is a pellet for insect-eating birds and contains over 30% insects.

HOW DOES IT WORK?

Wisbroek Insect Eater Diet is a specialized pellet formulated for insect-eating birds, containing over 30% insects, including black soldier fly larvae and mealworms. These ingredients are highly digestible and provide a good source of protein, fat, and essential nutrients that are essential for the health and wellbeing of insect-eating birds. Black soldier fly larvae are also rich in chitin, a complex carbohydrate that supports healthy digestion in birds. Mealworms are an excellent source of calcium, which is important for maintaining strong bones and eggshell formation in birds. Moreover, Wisbroek Insect Eater Diet has a high digestibility rate, ensuring that the nutrients are efficiently absorbed by the birds. This makes it an ideal food for insect-eating birds that require a nutritionally balanced and easily digestible diet.

ADVICE FOR USE

Wisbroek Insect Eater Diet can be fed ad libitum, meaning it can be offered freely and available at all times for insect-eating birds.

COMPOSITION

Extruded corn, extruded wheat, black soldier fly larvae, mealworms, wheat protein concentrate, locust bean meal, yeast, corn gluten meal, calcium carbonate, rapeseed oil, lignocellulose, monoammonium phosphate, egg powder, lecithin.

Analytical constituents:

Crude protein	32.12%
Crude fat	12.795%
Crude fiber	3.325%
Crude ash	8.56%
Phosphorus	0.98%
Calcium	1.47%

Additives:

Vitamin A (3a672a) (IU/kg) 8400, Vitamin D3 (3a671) (IU/kg) 2100, Vitamin E (3a700) (mg/kg) 84, Copper glycine chelate (3b413) (mg/kg) 12.6, Iron sulfate (3b103) (mg/kg) 63, Potassium iodine (3b202) (mg/kg) 1.33, Manganese oxide (3b502) (mg/kg) 109.2, Zinc oxide (3b603) (mg/kg) 12.95, Zinc sulfate (3b605) (mg/kg) 54.6, Sodium selenite (3b801) (mg/kg) 0.294

Technological additives:

Propyl gallate (e310) (mg/kg) 157.5, Citric acid (1a330) (mg/kg) 532, BHT (e321) (mg/kg) 16.8, BHA (e320) (mg/kg) 4.2

Zootechnical additives:

Phytase (4a19) (FTU/kg) 966, Xylanase (4a11) (U/kg) 1470

Not suitable for human consumption, for animals only.
