

WISBROEK SUGAR GLIDER NECTAR

SUITABLE FOR:

Sugar gliders

Wisbroek Sugar Glider Nectar is a complete feed for sugar gliders. Sugar gliders are omnivores and require a varied diet that includes both animal and plant-based foods. Therefore Wisbroek Sugar Glider Nectar contains a.o. egg powder, mealworms and black soldier fly.

HOW DOES IT WORK?

Egg powder is a rich source of protein and essential amino acids, which are important for muscle growth and repair. It also contains vitamins and minerals such as Vitamin B12, Vitamin D, and choline, which are important for overall health and well-being. Mealworms are a good source of protein and fat, as well as vitamins and minerals such as calcium and Vitamin B12. They are also high in fiber, which can help to promote healthy digestion in sugar gliders. Black soldier fly larvae are a nutritious food source for sugar gliders. They are high in protein and fat, as well as vitamins and minerals such as calcium and phosphorus. They are also a good source of chitin, a complex carbohydrate that can help to support healthy digestive function in sugar gliders.
