

WISBROEK IBIS – FLAMINGO FLOATING

SUITABLE FOR:

Ibises, flamingo's and spoonbills

Wisbroek Ibis-Flamingo Floating is a complete (floating) daily food for ibises, flamingos and spoonbills. During the unique extrusion process, the high diversity of raw materials is formed into delicious crunchy pellets under high pressure. Each pellet contains all the nutrients your bird needs to stay in good condition. Apart from the pellets, no extra additions are needed in the feed.

This balanced recipe ensures optimal digestion by using organic nutrients. Raw materials such as lutein, spirulina and canthaxanthin, which are used in the pellets, contain natural carotenoids. These carotenoids are body's own substances that birds would also eat in the wild and ensure that the true natural colors of your birds come out.

In addition to all these healthy nutrients, all the necessary fatty acids, amino acids, vitamins, minerals and other essential nutrients are derived from animal and vegetable protein sources of only the highest quality. These ingredients help to support your bird's immune system. We have coated our pellets with fish oil. As a result, the birds find it a very tasty meal.

FEEDING ADVICE

The quantity of Ibis - Flamingo Floating that ibises, spoonbills and flamingos need to eat each day depends on the season. In winter, the birds will eat more because they need more energy due to the cold. In summer, the energy requirement is less and there are more insects, algae and other natural tasty snacks available. As a result, the birds will eat less pellets during this period.

We recommend offering the food dry. Due to the extrusion process, the pellets do keep their shape in water. As a result, the pellets can also be given floating or soaked in water.

ANALYTICAL CONSTITUENTS

Crude protein	19%
Crude fat	9%

ADDITIVES - COLOURANTS

B-carotene	6,0 mg/kg
Canthaxanthin	40,0 mg/kg

Natural carotenoids for optimal colour development

Can be served dry or in water

With fish- and shrimp meal

Coating of fish oil for high palatability

Extruded pellets

Store in a cool, dry and dark place

Make sure the bird always has fresh water available.

Not suitable for human consumption, for animals only.

COMPOSITION

Wheat, poultry meal, barley, maize, fish meal, shrimp meal, wheat middlings, dehulled extracted soy protein, fish oil, linseed, poultry fat, beet pulp and spirulina.

ANALYTICAL CONSTITUENTS

Crude Protein	19,0%
Crude Fat	9,0%
Crude Fibre	2,4%
Ash	8,5%
Phosphorus	1,0%
Calcium	2,0%
Sodium	0,2%
Methionine	0,4%
Lysine	1,0%

ADDITIVES

Vitaminen	
Vitamin A	15.000 IE/kg
Vitamin D3	2.000 IE/kg
Vitamin E α -tocopherol	200 mg/kg
Vitamin C (Stable)	100 mg/kg
Colourants	
β -carotene	6 mg/kg
Canthaxanthin	40 mg/kg
Trace elements	
Iron (ferrous sulphate, monohydrate)	76,0 mg/kg
Iodine (calcium iodate, anhydrous)	1,3 mg/kg
Copper (copper sulphate, pentahydrate)	13,5 mg/kg
Manganese (manganese oxide)	28,0 mg/kg
Zinc (zinc sulphate, monohydrate)	135,0 mg/kg
Selenium (sodium selenite)	0,3 mg/kg

Disclaimer: Wisbroek is continuously working on an optimal composition of the various feed types. Mentioned values may therefore deviate from the actual product. See the label on the package for the exact composition.
