

WISBROEK PARROT NUT BLEND DAILY | SMALL & LARGE

SUITABLE FOR:

SMALL

Cockatiel, rosella, senegal parrot, poicephalus, swift parrot, king parrot and other seed- and nut eating birds

LARGE

African grey parrot, macaw, cockatoo, senegal parrot, poicephalus and other (middle) large seed- and nut eating birds

Wisbroek Parrot Nut Blend Daily is a complete daily food for nut- and seed-eating parrots and Psittaciformes. During the unique extrusion process, the high diversity of raw materials is formed under high pressure into delicious crunchy pellets in the sizes Small and Large. Each pellet contains all the nutrients your bird needs to stay in good condition. Besides the pellets, no extra additions are needed. Our ingredients are an excellent match for the diet of parrots in the wild. The pellets are therefore prepared with real seeds and nuts, such as sunflower seeds, katyang seeds, walnuts and linseed.

This balanced recipe ensures optimal digestion by using organic nutrients. We use raw materials such as canthaxanthin, alfalfa and lutein for our pellet. These contain natural carotenoids, which are bodily substances that birds in the wild would also eat and ensure that your bird's true natural colors come out.

In addition to all these healthy nutrients, all the necessary fatty acids, amino acids, vitamins, minerals and other essential nutrients are also derived from animal and plant protein sources of only the highest quality. These ingredients help to support your bird's immune system, among other things.
